

Abdullah Sherdy

Software Engineer · Backend-Focused | Fullstack in Progress (.NET & React)

+20 10 2186 2880 | abdullah.sherdy.work@gmail.com | linkedin.com/in/abdullah-sherdy | github.com/abdullahsherdy | Portfolio

SUMMARY

Backend Software Engineer with strong hands-on experience in **.NET (C#, ASP.NET Core)**, Clean Architecture and REST API development. Currently expanding into **fullstack development** with React and Next.js — actively building real-world projects that span both frontend and backend. Complementary proficiency in Node.js (Express, NestJS). Passionate about writing maintainable, scalable systems and consistently delivering real business value.

TECHNICAL SKILLS

Primary Stack – .NET: C#, ASP.NET Core (MVC, Web API), LINQ, Entity Framework Core, Dapper, RESTful API Design, JWT Authentication & Authorization, Clean Architecture, Repository & Unit of Work Patterns, AutoMapper, Swagger/OpenAPI, Payment Gateway Integration, ERP Workflow Development.

Frontend (In Progress): React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3 — actively developing fullstack skills through real projects.

Secondary Backend: JavaScript / TypeScript, Node.js, Express.js, NestJS, Mongoose ODM.

Database & Data Management: MSSQL, MySQL, MongoDB, Database Design, Query Optimization, Data Modeling, Indexing Strategies.

Software Engineering: Data Structures & Algorithms, OOP, SOLID Principles, Design Patterns, Clean Code, Agile, SDLC (software development life cycle).

DevOps & Tools: Docker, Git/Git-Flow, GitHub Actions (CI/CD), Azure Fundamentals, Vercel, Postman.

WORK EXPERIENCE

Code School

Remote / Cairo, Egypt

Part-Time Coding Instructor

Sep 2025 – Present

- Delivered programming fundamentals and project-based learning sessions for school-age students, focusing on logical thinking and algorithmic problem-solving.

iSchool

Remote / Cairo, Egypt

Part-Time Coding Instructor

Jun 2025 – Oct 2025

- Led online and onsite coding sessions for beginner and intermediate students across multiple age groups.

Digital Egypt Pioneers Initiative (DEPI)

Cairo, Egypt

Technical Mentor — Backend Track (.NET)

May 2024 – Dec 2024

- Mentored cohorts of students in backend development using .NET, with emphasis on Clean Architecture, REST API design, and enterprise integration patterns.
- Conducted structured code reviews and guided debugging sessions that directly improved students' code quality and problem-solving efficiency.

Mo5am El Freelance (Freelance Initiative)

Port Said, Egypt

Lead Instructor

Jan 2025 – Jul 2025

- Organized and lead a 7-month local program training young learners in programming, freelancing workflows, and digital skills.

PROJECTS

FixMate — Vehicle Service Booking System

GitHub Repository

ASP.NET Core 8.0 · EF Core · Clean Architecture · Docker · JWT · Swagger

- Designed the system using **Clean Architecture** with fully decoupled Domain, Application, Infrastructure, and Presentation (API) layers, enabling independent testability of each concern.
- Engineered secure, end-to-end workflows — customer registration, vehicle management, and service bookings — backed by **JWT-based authentication and role-based authorization**.

- Containerized with **Docker** for reproducible deployment; integrated **Swagger/OpenAPI** for developer-facing documentation and added real-time notification and email services.

The Book Haven — Library Management System

GitHub Repository

ASP.NET Core MVC · EF Core · SQL Server · N-Tier Architecture · Razor Views

- Implemented strict **N-Tier architecture** (Presentation → BLL → DAL) using the Repository and Unit of Work patterns; used **AutoMapper** to keep DTOs cleanly separated from domain models.
- Built full borrowing lifecycle: search/filter, borrow/return flows, member and inventory management, and **automated penalty calculation** enforced at the business logic layer.
- Modeled complex relational domain (Books, Authors, Loans, Penalties, Members) in SQL Server via EF Core migrations and relationship configurations.

EDUCATION

Helwan University

Helwan, Egypt

B.S. in Computer Science, Artificial Intelligence - last year

Oct 2022 – Present

CERTIFICATIONS

- DEPI .NET Web Development
